Golden State Warriors 2021–22 — game-to-game receiving-share stability

Current game: win Current game: loss Unavailable comparison

Receiving-share change
All players (JSD)

Receiving-share change
Returning players (JSD)

Change in raw entropy
Current − previous (nats)

Player turnover
1 − intersection / union

Current regular-season game number; each point compares with the immediately preceding game

Lower JSD = more similar receiving shares (base-2 divergence, theoretical range 0–1). No minutes cutoff.
Returning-player shares are renormalized over players appearing in both games. Zero-filled missing games invalidate adjacent comparisons.
